Hi Neil,

Thank you for your email. Here is a brief update on what we are currently doing with regards to the charging points.

Funding bids have been submitted to OLEV and Welsh Government to purchase and install a total of 21 'fast' EV charge posts (42 sockets – i.e. 'double-headed' charge points which are capable of charging two vehicles at once) at 11 town centre car park locations across the county.

Subject to obtaining funding for a successful Phase 1 project the Council plans a Phase 2 in 2019/20. Phase 2 intends to expand the number of fast charging facilities by adding an additional 28 fast charge posts (56 sockets) at 14 further car park locations. It is proposed to make a further bid to OLEV/WG for the fast charging element of Phase 2 in 2019/20. Phase 2 also envisages the installation of a total of 4 rapid charge posts (8 sockets) at 4 strategic locations adjacent to the trunk road network and international ferry terminals in Pembrokeshire and it is envisaged that this will be enabled via funding available from Welsh Governments £2 million rapid charging funds.

Hope this helps, if you would like or need any more information please contact myself.

Regards,  
Sian
